Teacher Guidelines:

MacMillan-Africa has published a comprehensive themed reading series for African primary school children containing seven levels of graded readers with three different types of readers at each level:

Imaginary World: modern and traditional imaginative stories

Discovery World: fact based readers

Everyday World: stories based on familiar situations and contexts.

We think many of these readers are suitable for children in our own schools, not only to enhance the reading materials available to them, but also introducing them to the life and culture of African countries.
